Hello Everybody,

Here are the milestones to be reached and the dates for submission. We will learn to build all of the components listed below and I will be going over these details in our upcoming sessions. These milestones are for teams, of course.

Please note below the upcoming submission due on 04/12/2021. For the first milestone, each team must submit their idea for the final project, which will be a fullstack application with the features listed below.

Note:
Your final project is only required to have the features listed below so please prioritize these before any additional feature(s) you'd like to include.

:::Features for Final Project:::
For the final project, the following key features must be implemented in the applications (backend & frontend):

1. User registration route
2. User login route
3. User update route
4. Product listing route (or a similar alternative*)
5. Product creation route (or a similar alternative*)
6. Product update route (or a similar alternative*)
7. React landing page
8. React component for registration
9. React component for login
10. React component for logout
11. React component for updating user
12. React component for user avatar
13. React component for product listing (or similar alternative*)

*similar alternatives can be event listings, post listings, movie listings, etc.

Note: for features 12 & 13, the components must read data from the backend.

:::Dates:::
1. Project Selection & Description – Deadline: 04/12/2021 @11:00pm
2. Frontend (HTML landing page) – Deadline: 06/12/2021 @11:00pm
3. Backend (all routes + models) – Deadline: 08/12/2021@11:00pm
4. Frontend (React landing page) – Deadline: 10/12/2021 @11:00pm
5. Frontend (all pages) – Deadline: 14/12/2021@11:00pm
6. Finalized project - Deadline: 18/12/2021@04:00pm
